

GOVERNORS TAKE DRY ENFORCEMENT PLEDGE TO CHIEF

Not a Dissenting Voice Is Raised At The Law And Order Conference.

MEET PRESIDENT AT WHITE HOUSE

Governors Determined To Exert All Efforts To Enforce Law.

Aboard Governors' Special Train, enroute to Washington, Oct. 20, State governors, fresh from their 15th annual conference at West Baden, Ind., today were speeding rapidly to Washington on a special train to pledge to President Coolidge the fullest cooperation in the administration's drive to enforce the prohibition law.

Not a dissenting voice will be raised at the White House "law and order" conference this afternoon, when the written pledge is delivered to President Coolidge by Gov. Barker, of Maine, that the states chief executives are determined to maintain the sanctity of the constitution and enforce all laws of country, particularly the dry, narcotic and immigration laws, which the president called the governors to discuss.

This was made certain when the two governors Sizer of New Jersey, and Parker, of Louisiana, who voted against the Sweet resolution, pledging four-square enforcement, announced, after extended consultation with dry leaders on the train, that they are prepared to assure the president that they are "determined to exert all energies to enforce the law."

"We are enforcing the dry law in New Jersey and we will continue to enforce all laws that are a part of the constitution, and will do so as long as they are on the statute books," Gov. Sizer said.

Stand For Enforcement

Pointing out that because of certain conditions, peculiarly local to Louisiana, enforcement of the liquor law is "perhaps more difficult in my state than in some of the others," Parker declared:

"Of course, as governor of a state and as an American citizen, I stand for strict law enforcement."

To bear out his sincerity, he cited the fight he is making in the state to wipe out the Ku Klux Klan, which he denounced as an "organization that defied constituted law and sought to take the law in its own hands to establish a super-government veiled behind the mask and robe."

While governors agreed that it was the duty of all federal and state executives to enforce those measures enacted into the law of the land, sharp division existed as to plans how the dry enforcement lines could be tightened more effectively.

The only semblance of unanimity on this question was indicated in the growing strength of the demand, voiced by Gov. Pinchot of Pennsylvania, that President Coolidge himself take over the responsibility of the federal enforcement system. Pinchot will carry that challenge directly to the president this afternoon, pointing out that there is little hope for better enforcement unless responsibility is centralized; issuance of fraudulent warehouse withdrawal permits halted, and a sweeping housecleaning made in the prohibition service to oust all officials not accomplishing results.

REILLY DAMAGE CASE APPEALED

Prosecutor Henley Fights Case Through State Supreme Court.

Prosecutor Jesse Hanley will leave for Columbus, Oct. 23, to represent the county commissioners in the appealed case of Pearl Reilly, of Salem, who early last spring received a verdict of over \$2,000 from a jury in common pleas court, as damages.

The plaintiff entered suit to recover against the county because a runaway containing the plaintiff and three other young people, skidded on the slippery pavement on the Bridge hill and went into the ditch, injuring Miss Reilly severely.

The suit has attracted much attention here owing to the fact that the plaintiff alleges negligence on the part of the commissioners in not providing proper guard rails for the road.

The case was carried up to the supreme court after the appellate court had reviewed the findings of the lower court.

You, in this case, means every interested voter in Salem. For the benefit of those who wish to familiarize themselves with the land, the source of supply and the proposed construction, pilgrimages will be made to the Cold Run site seven miles south of the city on the Depot rd.

The first trip has been arranged for Saturday, Oct. 27, starting at 2 p. m. A dozen, perhaps two dozen autos will be provided to take any who wish to go. They are requested to meet in front of City hall at 2 p. m. that day.

INCREASE LISBON FREIGHT CAPACITY

Erie And P. L. & W. Roads Prepare To Handle Larger Output.

Lisbon, Oct. 20.—For the last four months gangs of track layers have been engaged in laying heavier rails on the Erie railroad between Lisbon and Leetonia. Next week they will turn their attention to the track in the Lisbon yards of the company, all of which are to have the 99-pound rails installed.

The old switch that extends about a mile east of town to the site of the American Vitriol Products company's plant, and which has been grown up with grass and underbrush for the last 12 years is to be cleaned up and new track laid.

Unofficial reports state that the Erie is planning to install a switch engine crew in the yards here and take care of its increasing business here. The activities in track laying have been caused by the enormous increase in the tonnage of coal transferred here from the Y. & O. tracks to the Erie.

With this and the anticipated doubling of the output of the clay manufacturers by the rebuilding of the American Vitriol Products plant, the facilities for handling freight at Lisbon will have to be doubled.

The Lisbon and Western road has for several months been increasing its yard facilities here and has laid heavier rails to the terminals at New Galilee.

Find Some Bacteria In Sample Of Water

Samples of the city water, tested Thursday, show traces of bacteria, according to the report of Health Commissioner T. T. Church Saturday. The report does not indicate what kind of bacteria was shown by the analysis but the amount does not indicate a serious condition. However, the health commissioner points to the fact that it does indicate that the city water is not safe at all times.

Turn Off Water On Two Streets Sunday

The waterworks department announces that at 7 a. m. Sunday the water will be turned off for an hour and a half on Depot st. from West Pershing ave. to the southern end of the street and on Etna st. from Depot to Broadway. Some repair work is to be done.

ARMED RESISTANCE TO BERLIN THREAT IN BAVARIAN NOTE

Open Break Between Berlin And Bavaria Seems Inevitable.

END WAGE CREDITS TO RUHR WORKERS

Germany Officially Ends Passive Resistance To French.

Munich, Oct. 20.—Bavaria today sent a note to Berlin threatening armed resistance if "the German state attempts to violate Bavarian sovereignty."

The Bavarian note was defiant in tone—almost an open challenge.

An open break between Bavaria and Berlin seemed inevitable.

Dresden, Oct. 20.—Reinforcements of reichswehr arrived in Chammnitz and Plauen today.

Premier Zeigner of Saxony, who has been rejecting the Berlin government, has adopted a more conciliatory attitude.

Berlin, Oct. 20.—The Berlin government today ceased all wage credits to the German workers in the Ruhr, officially ending passive resistance against France-Belgian occupation.

It is expected that a terrific social and economic crisis may follow as the government has been pouring billions of marks into the Ruhr weekly since it was occupied to support workmen whether they worked or not.

Hugo Stinnes, the industrial and coal magnate, has conferred a second time with Gen. Degoutte, commander of the French artillery in the Ruhr, regarding working conditions under French occupation. It was learned today, Gen. Degoutte insisted upon delivery of reparations coal as well as free coal for the railways in occupied territory and the troops.

Degoutte virtually threatened a coal blockade against unoccupied Germany. Stinnes tried to argue that the French demands were impossible but Degoutte insisted and the conference ended in a deadlock.

2,000 PRISONERS ON HUNGER STRIKE

Dublin, Oct. 20.—More than 2,000 Republican prisoners are on hunger strikes in Irish jails, according to a statement issued by Republican headquarters today. They claim the hunger strike is growing rapidly.

Republican leaders who are under arrest are still held in Mount Joy prison, but the rank and file have been removed.

The Republicans claim that the conditions of some of the hunger strikers are precarious. Free State officials deny the charges.

Women and children continued a demonstration in front of the prison.

Registration Light Despite Big Issues

Cincinnati, Oct. 20.—With only one day remaining for registration, this city is 15,549 short in its registration. In all 97,431 Cincinnati voters have qualified, 26,968 of these being women. This figure, however, is far below that of last year.

Political observers are at a loss to explain the slump, as the election involves many of the most important issues before the city in a decade.

Take Enforcement Out Of Politics Is Baker's Suggestion

Westerville, O., Oct. 21.—"To focus responsibility, make the prohibition enforcement division of the government a department of itself. Put its agents under civil service and sever this whole dry cleaning from partisan pie counter and patronage politics," declared Rev. P. A. Baker, general superintendent of the Anti-Saloon League of America, here today.

"The meeting of President Coolidge and the governors of various states at Washington today is a most opportune," continued Baker, referring to the conference called by President Coolidge to discuss questions of law enforcement with the governors.

600 CANDIDATES GIVEN DEGREE AT GRANGE MEETING

Grangers At Special State Niles Session Total About 1,500.

MASTER ATTACKS OLD AGE PENSION

Meeting Held To Prepare For National Meeting In Pittsburg.

Niles, Oct. 20.—The proposed old age pension bill, as now drawn, was condemned by C. A. Dyer, legislative representative of Ohio State Grange, at a special meeting of the Northeast Ohio district here last night.

Fifteen hundred grangers from the seven counties (Portage, Summit, Trumbull, Columbiana, Mahoning, Ashtabula, Geauga) comprising the district, attended the meeting, called to confer degrees upon 646 candidates preparatory to the national convention in Pittsburg next month.

This is the first time such a ceremony has been held other than at a state convention.

Mr. Dyer said he did not oppose the principle set forth in the old age pension bill which will come before the voters Tuesday, Nov. 6, but object to it because it fails to set forth any eligibility rules and does not provide for investigation as to the character or thrift of the proposed pensioner while able to earn a livelihood.

Other speakers included H. A. Catton, state master, and G. R. Lewis, state lecturer.

Mr. Lewis, who has charge of the Ohio state fair, told what the grange had done in cleaning out midways at county fairs.

Mr. Fullerton, a member of the executive committee of the Pennsylvania state grange, spoke in the interest of the national grange meeting at Pittsburg. It is said that Pittsburg is the center of the grange population in the United States, and that is one reason for holding it in that city.

C. S. French, Salem, past master of Mahoning County Pomona grange; Homer E. Williams, deputy of Columbiana county, and A. Stahl, of Greenfield, were among those who assisted with the initiatory work. About 75 from Salem and vicinity took the degree.

L. J. Taber, past state master, administered the fifth degree to a large class of candidates.

RAIDS IDORA INN MAKES 2 ARRESTS

Ritchie Extends Operations To Youngstown, Finding Gallons Of Liquor.

Mrs. Mary Falconi, widow of "Big Jim" Falconi, former wet leader in Youngstown, was arrested Friday afternoon by Special Prohibition Officer Earl A. Ritchie, of Salem, on a charge of illegal possession and sale of intoxicating liquor at the Idora Inn Youngstown, which has been run by Mrs. Falconi.

Ritchie entered the Inn Thursday night at a late hour, seized a gallon of liquor and a number of liquor sales slips and attempted to put the woman under arrest.

Mrs. Falconi became sick and went to her room. Ritchie called a physician and kept guard outside of the room. After several examinations by the doctor the woman finally admitted at 4 p. m. Friday that she had feigned an illness and was then taken by Ritchie to Strube's where she will face the mayor of that town on charges.

James Taylor, chef at the Inn, was arrested and placed in the Struthers Jail.

Angels Gave Her Warning Says Spiritualist Pastor

Cleveland, Oct. 20.—Denying that art said in the presence of 25 witnesses in her own dining room, said: "Little One, you simply run your head into a hornets' nest. You'll never gain anything by it for spiritualism. Stay away from there."

Mrs. Stewart was greeted upon her arrival here with the news that her New York publication had declared her demonstration unsatisfactory.

She expressed no surprise. She said she had "encountered a feeling of suspicion and distrust" when the test was undertaken.

EX-CONGRESSMAN FINED, SENTENCED FOR OVERCHARGE

Benjamin Welty Of Lima To Serve Year In Workhouse, Pay \$500.

VIOLATED SOLDIER COMPENSATION ACT

Found Guilty Of Charging Excessive Fee For Getting Compensation.

Toledo, Oct. 20.—Former Congressman Benjamin F. Welty, of Lima, was under sentence today to serve one year in the Dayton workhouse, and pay a fine of \$500, following his conviction of obtaining an excessive fee in securing compensation for an ex-soldier.

Judge Paul Jones of Youngstown, in federal district court here last night, imposed the sentence, after overruling Welty's motion for a new trial.

Welty's attorneys also filed a motion to set aside the jury's verdict on the ground that the law under which he was convicted is unconstitutional. Judge Jones refused to pass on this motion and referred it to the higher courts for decision.

Welty was found guilty Wednesday on charge of violating the compensation act, which as a member of congress he had helped to pass.

The law provided a fee of \$3 for filing papers, but evidence brought out at the hearing showed that Welty charged \$1,200 for securing compensation for Franklin Strayer of Lima.

Young Strayer is insane and at the trial it was shown that his guardian had not agreed to pay Welty any such sum. Welty, on the witness stand, admitted that neither Young Strayer nor his guardian had agreed to pay him, but the boy's father had agreed to allow him one-fourth of the amount he secured besides \$500 for expenses for three trips to Washington.

In imposing sentence, Judge Jones bitterly scored the former congressman, declaring that he was "money mad" and that attorney he must have known that the law allowed but \$3 for such service. The case will be appealed to the federal court of appeals.

AUTO HITS CURB, DRIVER IS KILLED

Canton, Oct. 20.—James V. McCann, 23, was fatally injured here last night in an auto accident and died at 7:20 o'clock this morning in a local hospital with a fractured skull. Mr. McCann is survived locally by his widow and one child.

The accident occurred at 12th st. and Fulton rd., one block from Mr. McCann's home. It is believed by those who saw the car dash to the sidewalk that the wheels of the machine "buckled," blocking efforts to get it back under control.

When the machine struck the curb, Mr. McCann was hurled through the windshield and struck on his head upon the pavement. He suffered head cuts and bruises about the body.

Defies Police All Night, Dies In Fire

Alexandria, Minn., Oct. 20.—After an all-night battle in which he stood off a score of deputies and militiamen, who littered his home with bullets, and efforts to gas him with ammonia, Edward Larsen, 38, went to his death today when his residence was burned to the ground by order of the sheriff and county attorneys.

During the fierce battle, William Reimsden, 25, an ex-service man and sharpshooter, was shot and killed.

POLICE GUARDING M'KEE RESIDENCE FOLLOWING BLAST

Vigilance Committee Formed With Orders To Arrest Or Shoot Suspects.

POLICE FIND NO CLUE TO BOMBER

Believe Charge Contained Nitroglycerine; Making Repairs To House.

Although no trace of the persons who bombed the home of Mr. and Mrs. Floyd McKee early Friday morning, causing several thousand dollars damage by wrecking the first floor of the home, can be found, city police and a special committee are patrolling the neighborhood of the McKee home in McKinley ave. at all hours of the day and night. "Winings have been issued that all persons found in that part of the city acting in a suspicious manner will be arrested."

Friday night city police patrolled the alleys and side streets adjacent to the home but no one was found lurking in the neighborhood. Extra precautions were taken to round up any one who might be suspected to be a blackhand or bomber.

A hastily organized vigilance committee is at work and orders are to shoot to kill any one found in the neighborhood who is acting in a suspicious manner. The supposition is that enemies made by McKee's dry activities did the work.

Chief of Police T. W. Thompson has been investigating the affair but because no trace was left by the dynamite no clues have been found.

One new theory advanced regarding the bomb is that it contained nitroglycerine. Dynamite leaves a whitish gray streak after an explosion, and so far no such streak has been found. Investigators have, however, found traces of glycerine and it is claimed that the smell of the high explosive could be detected under the flooring of the kitchen.

Another belief is that the bomb contained T. N. T., one of the most powerful explosives known. The terrific force of the bomb makes the second theory as to the contents of the bomb seem plausible.

Friday night the house had been sufficiently repaired so that the McKee family could sleep there. "All windows in other houses damaged by the blast were put in Friday afternoon. It will be some time before McKee's home will be completely repaired because a new back part will have to be built."

WHERE IS YOUR HEART?

If you were suddenly asked to
place your hand over your heart I
think you would find it in the
right hand.Many people would put their hand
on their left breast just a little
below the nipple, because they have
felt or seen the heart beating here.And this is the right place, for the
heart is located in the right hand
of the body.In fact it would be possible for a
man to be shot through the right
side of the chest, close to the breast
bone, and the bullet would go through
his heart, because the heart lies di-
rectly under the breast bone, mostly
to the left of course.So to get an idea of the location of
the heart and the big vessels arising
from it, you just look at your breast
bone. Up near the top you will see
or feel a lump where two parts of
the bone meet. This is the upper
border, go down the breast bone to
an inch of the bottom and you have
the lower border. The right border
is an inch to the right of the breast
bone, and the left border curves
down about an inch of the nipple.As the heart beat is all you can
see or feel about the heart, a word
about it might be of help. It is the
lower portion of the heart striking
against the chest wall. It should
be about half inch to the right of
the nipple and about an inch below
it.Sometimes the nipple is close to
breast bone, and sometimes at a
considerable distance, so that a
point 2 1/2 to 3 inches from the middle
of the breast bone, would be about
the normal spot for the heart beat.Now the location varies with dif-
ferent types and ages. For instance
in a short stout person the heart is
higher up than in a long thin per-
son. A difference of a couple of
inches sometimes. In youngsters
also the heart is higher up than in
older people.Lying on either side will shift the
heart in either direction. In very thin
persons the heart may appear to be
very strong against the chest wall,
whereas in a fat person it may be
lost entirely.If you find pulsations at other
points than the above place, even
when you are at rest, it might be
well to consult your family physi-
cian.Yellow Springs, O. — Mrs. Linde,

Old Age Pension

A PENSION given solely on account
of old age and negligence is noth-
ing else than charity; it is not con-
tingent upon any service to the state
or the community. And that is the
kind of pension that the proposed
amendment to the Ohio constitution
would provide.To deny that the adoption of this
system would impose a burden of
many millions of dollars upon the tax-
payers of the state is to confess that
there is no demand for it adequate to
justify the adoption of the system.(Under a law which prescribes as the
only qualifications for drawing a pen-
sion that the beneficiary must be 65
years of age, possess less than \$2,500
(\$2,499 lets down the bars) and shall
have been a resident of the state 15
years with a maximum absence during
that period of two years, it is easily
seen that the eligible list would ab-
sorb literally millions of public funds.How the proponents of this measure
expect to raise the vast sum required,
with the farms, homes, stores and in-
dustries already groaning under ex-
cessive taxes and frantic appeals be-
ing made for operating revenue by
practically every governmental unit
of the state, apparently is a problem
which none of them have undertaken
to analyze.The inherent evils of the old age
pension idea are the two evils charac-
teristic of the modern American
trend—evils which are undermining
the stability of government and grind-
ing the people down with taxation:Dependence on "the government" as a
Lady Bountiful with unlimited dolars
to hand out and the creation of end-
less boards and bureaus and inspec-
tors. When it is noted by the Ohio
taxpayers that this proposal on its
face provides for salaries to be paid
by the state to the amount of \$125,
000 a year, with innumerable minor
jobs, "welfare officers" and subordi-
nates in each county on salary as a
first expense before a single dollar
can be distributed to the aged indig-
ent, one cannot doubt as to what the
verdict of the informed electorate will
be.

Children's Book Week

BOYS and girls' reading will get
special attention this fall, at the
fifth annual Children's Book Week
which begins Nov. 11 to 17. Libraries,
schools and book stores all over the
country are planning exhibits of books
for children and young people—and
they make a fascinating array, for
even the least expensive editions now-
adays are dressed up with alluring il-
lustrations, and the contemporary
to have high ideals both as to style
writers of boys' and girls' books seem
and subject matter.Too many children grow up without
forming the habit of reading. Reading
seems a task to them and they lose
the fun of discovering new worlds and
adventures through the doorways of
books. Parents should give more
thought to this important phase of a
child's development—guiding him to
the better books, discussing with him
all that he reads, and endeavoring to
instill in him a genuine love of read-
ing.Children's Book Week is a good time
to plan for the Christmas season,
since books are appropriate and last-
ing gifts. Librarians and booksellers
are advocating "More Books in the
Home" and are glad to suggest books
that children really enjoy. Young-
sters like to own things and are always
delighted to have a row of books "all
their own."

The Dynamiter

REGARDLESS of what may have
prompted the outrage, there can
be nothing but scorn for the coward-
ly act in setting off a charge of dynamite
under a Salem man's residence
Friday morning. It is a challenge
to the law-abiding citizens of Salem.
Are we as liberty-loving, law-abiding
citizens going to sit by and permit
such dastardly work to continue? Is
this a bomb-hurling country or is it
America? The hand of the coward
is not shown, but there should be an
unrelenting effort to run him or them
down and bring them to justice.
America must be made safe from such
outrages.

Says Love-Making Should Be Taught In The Churches

Syracuse, N. Y., Oct. 20.—Love making should be fostered in every church in Syracuse and the rest of it taught in the Sunday schools, declares Rev. Albert H. Wright, pastor of the Immanuel Baptist church.

"Courtship is going on in our churches and Sunday schools constantly whether we know it or not," the minister declared today. "It really does not have to be taught to develop, but some guidance should be given in order to have it take the right channels."

"Without the spirit of love making our Christian Endeavor societies would have to close their doors, for there would not be enough young people to sing anything but a solo."

"Under the influence of the Sunday school and the Christian Endeavor society the young people of both sexes are brought together under proper conditions and learn love in its purer sense. This is not always understood and fostered by the heads of the religious organizations."

"Sunday school is the best and finest place in the world for love-making, in my opinion. It is the match making that lasts that is developed with a religious atmosphere."

"What is more natural than for love to develop when young people of 16 years or over get together in the proper atmosphere?"

Men are busy filling the vacant lots on Columbia st. along the Pennsylvania lines, also the low land on the south side of Columbia st. which was one of the sites suggested for the prospective community house.

Plea For Debs

Editor of The News:
With all my heart let me express the hope that many citizens of Salem and vicinity will go to Canton on next Wednesday evening, Oct. 24, and hear the message of Eugene V. Debs at the auditorium.

On July 16, 1918, Mr. Debs made a speech at Wintonia park, Canton, O., and I believe it will be a surprising revelation to most of our people to learn that the following quotation from that speech contains all he said about war that was considered objectionable, and the only words uttered on which and for which he was indicted, convicted and sentenced to a federal prison at Atlanta for ten years.

Read it and question the truth of it, those who will:

"Wars have been waged for conquest for plunder. In the Middle Ages the feudal lords, who inhabited the castles, whose towers were still seen along the Rhine—when one of those lords wanted to enrich himself then he made war upon the other. But they did not go to war any more than the Wall Street Junkers go to war. The feudal lords—they declared—the wars. Who fought the battles? Their miserable serfs. But in all the history of the world you, the people, never had a voice in declaring war. You have never yet had. The working class, who fight the battles, who make the sacrifices, who shed the blood, who furnish the corpses, the working class have never yet had a voice in declaring war. They have never yet had a voice in making peace. It is the ruling class that does both. They declare war, they make peace."

"You're not to reason why. You're but to do and die."

"This is their motto and we object to it on the part of the awakened workers. If war is right let it be declared by the people, by you who have your lives to lose; you certainly ought to have the right to declare war if you consider war necessary."

The above is really mild, compared to the thundering indictments of William Lloyd Garrison and his compeers relative to the Fugitive Slave Act, during the forties and fifties. And yet, all now agree that Garrison told the truth and was right.

Be fair and give this wonderful man Debs a hearing.

Henry T. Allen May Be Coolidge's Mate.

Gov. H. T. Allen

His recent visit to the White House, followed by his defense of the president in answer to Gov. Gifford Pinchot's attack on the wet question, has caused friends of Gov. Henry T. Allen of Kansas to predict that he will be the vice presidential nominee if Mr. Coolidge wins the Republican nomination for the presidency.

MILLIONS SPENT FOR PAVED ROADS, BIG GAIN SHOWN

That the construction of modern automobile roads and paved streets in this country is gaining in volume year by year is shown by statistics just announced by Highways Information Service, New York. The figures show also that highway contracts awarded during the second half of the year average in volume only about 25 per cent less than those let during the first half and that there is not a month of the year in which a large amount of construction is not under contract.

In 1920 a total of \$530,848,000 in new road construction was awarded in this country. In 1921 the amount was \$630,712,000 an increase of \$99,864,000 over 1920. Last year contracts were awarded to the amount of \$689,428,000 an increase of \$58,716,000 over 1921 and \$138,580,000 over 1920. From Jan. 1 to June 1, this year, a total of \$384,774,000 was placed under contract. At this rate new highways for which contracts will be let during 1923 will cost approximately \$734,000,000 a gain of about \$125,000,000 over 1922.

About \$1,250,000,000 all told, for federal, state, county, district, township and city highway construction and maintenance will be expended this year. The federal and state city and town appropriations for streets and roads total \$285,000,000 and the remainder represents the funds to be expended by the counties, parishes, road districts and townships. Compared with the 1923 road construction in the United States, the construction of the great Roman highways, the erection of the pyramids, the building of the Chinese wall and the excavation of the Panama Canal pale into insignificance.

SEES RUSSIANS INVADE GERMANY

Senator Home From Europe,
Says Army Is Massed
Along Border.

Washington, Oct. 20.—Massed along the Russian border is held in readiness to invade Germany at any moment in support of a Communist revolution, Sen. William H. King, Democrat of Utah, declared today in warning against a threatened spread of sovietism throughout Europe.

The Russian forces, estimated at from 50,000 to 150,000, will "smash a bridge across Poland" as soon as soviet agents give the signal in Germany for a red revolt, King added. He said the prospect of a "soviet Germany" was imminent and that only a miracle "can prevent it."

The "miracle" would be settlement of the Franco-German reparations problem. He urged the American government to summon an international conference of the allied nations to determine a "fair settlement."

If the conference were called its decision would be accepted because of world public opinion, King said, even if France refused to attend.

These were the outstanding impressions gained by the senator on an 17,000-mile tour of Europe, from which he has just returned to the capital.

That Russia stands ready to throw her troops into Germany, King said, was admitted by the soviet leaders, including Georges Tchitcherin, soviet minister of foreign affairs.

"I interviewed Tchitcherin on this subject and he frankly admitted that the 'time might come' when Russia would throw her troops into Germany. He told me: 'We are ready to use our troops whenever a movement arises in Germany which will threaten the Russian soviet government.'"

"He declared Russian troops would invade Germany if the Fascist movement threatened to gain control there or if France began marching toward Berlin."

CALIFORNIA VET TO LEAD LEGION

John Quinn Named National
Commander At Meeting
In San Francisco.

San Francisco, Oct. 20.—A tired hand yielded the legislative management of the American Legion to a newly created national commander when Alvin Owsley, retiring commander, turned over to John R. Quinn of California the responsibility of guiding the destinies of the legion for 1923-24, at the close of the fifth annual convention of the organization here last night.

A far different type of man took up Owsley's burdens. Quinn, a cowboy and a typical westerner of the open plains, immediately announced he would dedicate his administration to conducting a vigorous campaign to obtain immediate passage of the ex-service men's adjusted compensation act, and a close and human contact between the disabled veterans and the government agencies in charge of rehabilitation and hospitalization.

The following national vice commanders were elected: Ryan Duffy, Fond Du Lac, Wis.; Thurman Mann, High Point, N. C.; William B. Healy, Wilkesbarre, Pa.; S. C. Stoddard, Arizona, and Lester Albert, Idaho.

SCHAFERS PLAY AT MASSILLON SUNDAY

Meet Liverpool Grays Here
Oct. 27 In First At
Home Game.

Manager Rolland Webster of the Schafer Independents announces that the team, originally scheduled to play at Centennial park Sunday with the Massillon Pen Handies, will go to Massillon instead. The Stark county team having some mixup in schedule desired the game at that place.

The Independents will go to Massillon with several new and all their old stars in the lineup. In addition a big rooting party will go along, 30 having already made known their intentions of being on the sidelines when the whistle blows.

Although no time has been announced the game will probably start at 2:30.

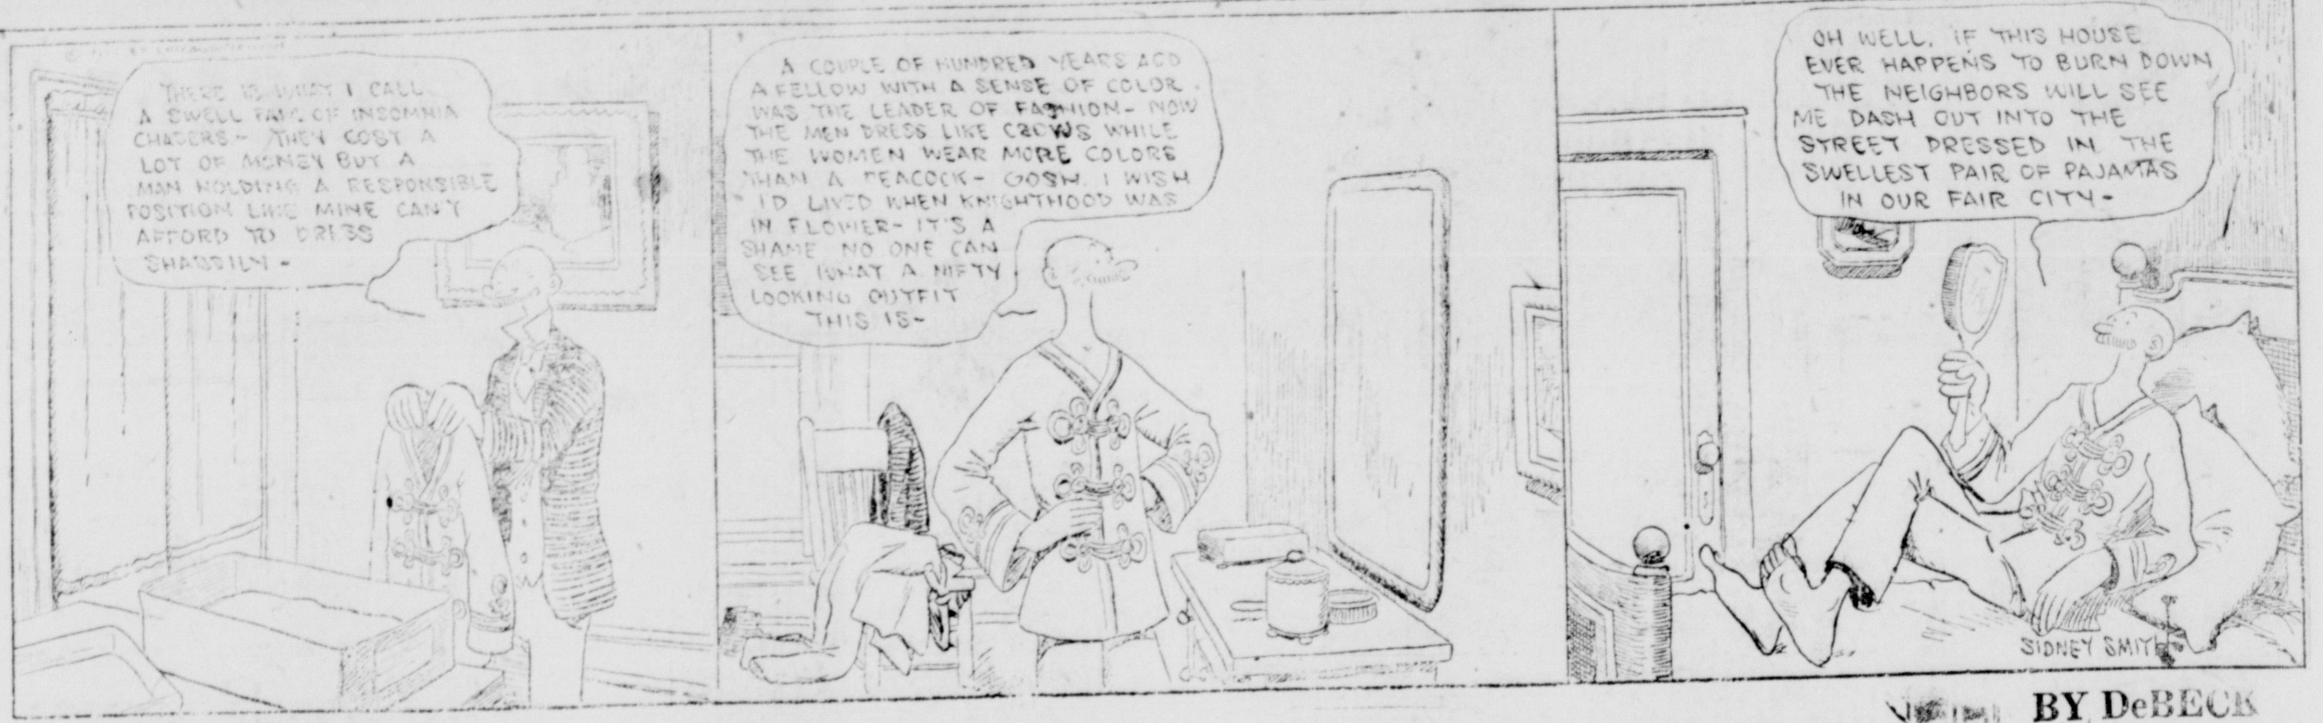

MULLINS TO PLAY LOUISVILLE PROS

The Mullins A. C. football team will go to Louisville Sunday to tackle the Louisville Rebels, the professional team of that town. Although a new team in the local pickin field the Mullins squad is stepping right along and bids fair to be a high class eleven before many weeks pass.

On the Mullins team are many of Salem's professional players and others play with the team on Saturdays.

Oct. 27, when Salem High goes to East Liverpool, the Mullins team will meet the East Liverpool grays the representative professional team of that city here at Reilly field at 2:30, being the first at home professional game in the city on Saturday.

One-Room Schools Scored By Grange

One room schools were scored at the regular meeting of the Greely Grange, near East Rochester Thursday evening. Members of the grange were largely of the opinion that the old fashioned school house is not conducive to the health and happiness of pupils.

An interesting discussion was also

held on the subject of what were the favorable and unfavorable influences in the community. Many of those present took part in the debate.

Another thing that we don't believe it would make us very sad to think we should never see again is fried tomatoes.

"OIL FACTS" is written both for the expert and for the motorist who knows nothing about his car.

"OIL FACTS" assumes that there is no use suggesting that a motorist use good oil without first showing him why he should do it.

Accordingly, the first part of the book tells in simple, non-technical language, well illustrated, just how an automobile motor operates.

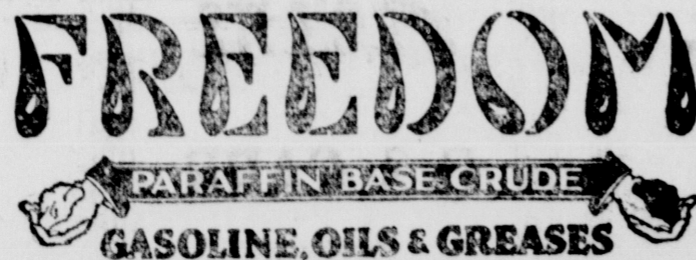

In connection with this, you see clearly where your oil goes, what it does, and why it does it.

As a result, you will form, in your own mind, a vivid picture of the reasons why thousands of dollars worth of damage is unintentionally done to cars every year—you will clearly understand and appreciate why good oil adds years to the life of any car.

Regardless of how much or how little you know about your car, you will enjoy every minute it takes you to read "OIL FACTS."

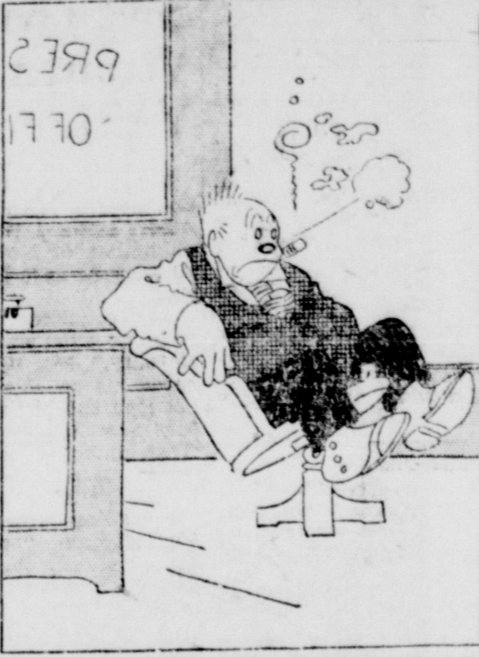

Ask your dealer for a copy—he will gladly give you a copy—free.

Says That Beautiful Women Will Soon Vanish From U.S.

Topeka, Kas., Oct. 20.—The American woman is rapidly becoming ugly, Albert Edward Wiggam, biologist and publicist of New York, declared in an address here before Kansas teachers.

"Or beautiful women soon will cease to exist except in pictures and statuary," Mr. Wiggam asserted. He based his conclusion on the disparity between the birth rate among American women of the highest type and that among low class immigrants.

"On an average one child is born to every three of the graduates of our leading women's colleges," said Mr. Wiggam, "but one low class broad-backed, flat-chested, stout-legged, high-necked, stupid, ugly immigrant woman will in the same time produce three. By this process the American woman is rapidly becoming ugly. With a decline in beauty there always comes a decline in intelligence. Every decline in intelligence brings a decline in morals. The crime wave is no mystery to biologists."

"There is only one way out. The old family ideals must be restored. The old American homestead with its good sized family of well born children, must be rebuilt."

For small apartments there has been invented a gas stove fitted with a cover for use as a table and the whole device can be folded back against the wall when idle.
